

# Component Diagrams - API-Client-UI Architecture

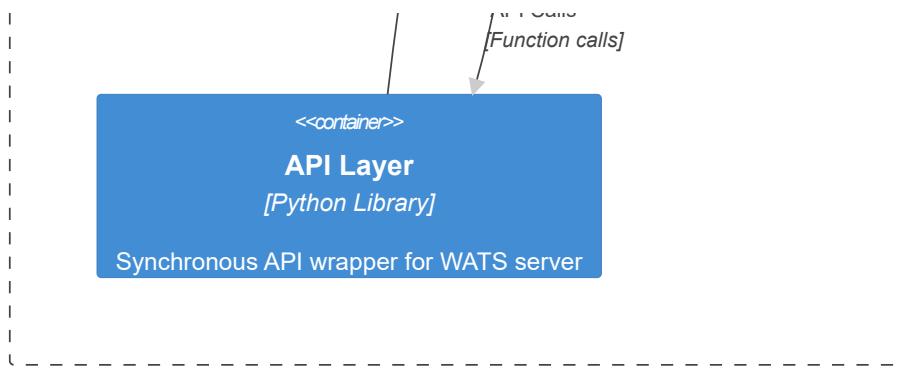

**Date:** February 8, 2026

This document contains comprehensive component diagrams showing class hierarchies, system architecture, and component relationships.

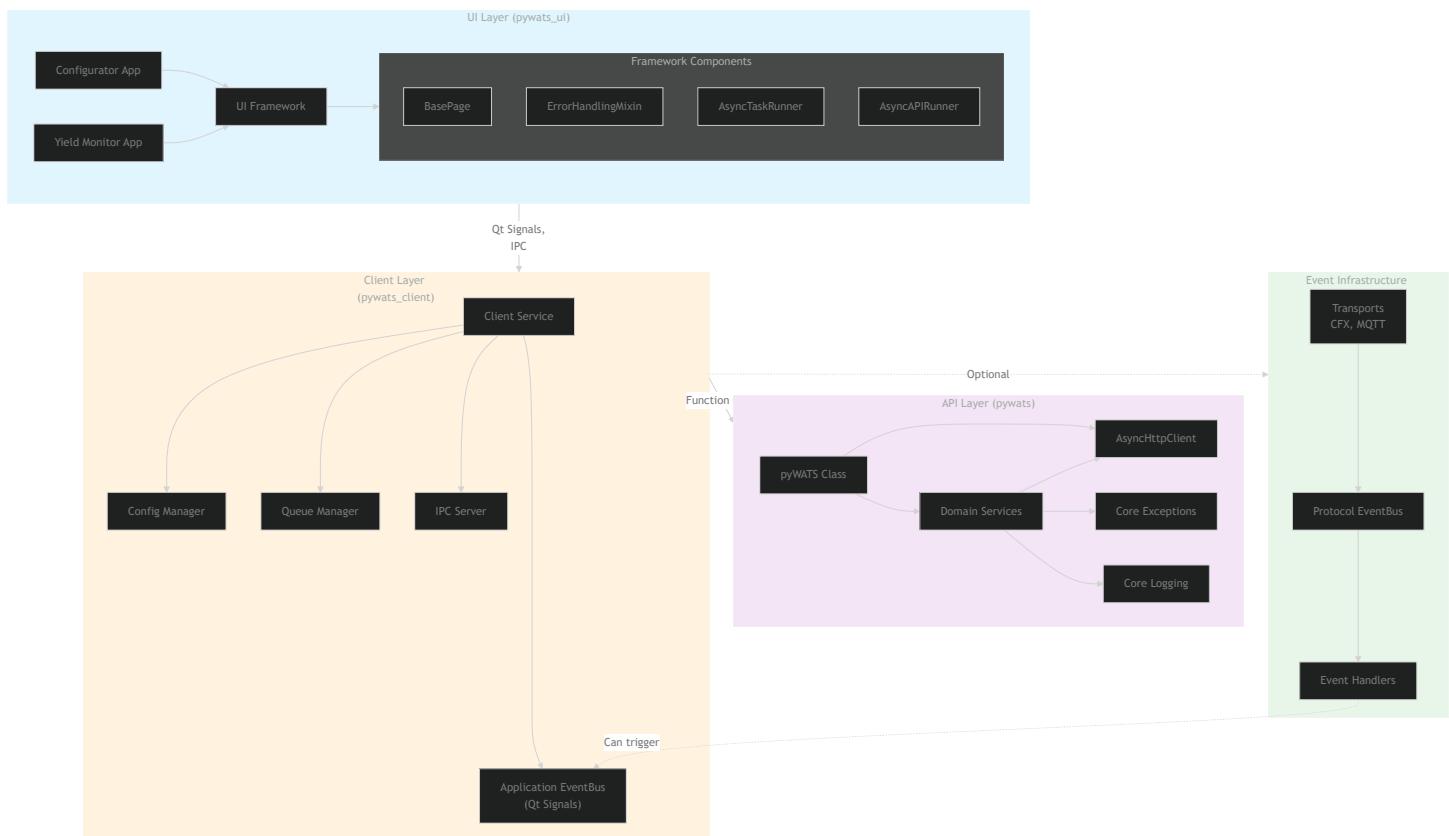

# 1. Three-Layer System Architecture

## System Context - pyWATS Three-Layer Architecture

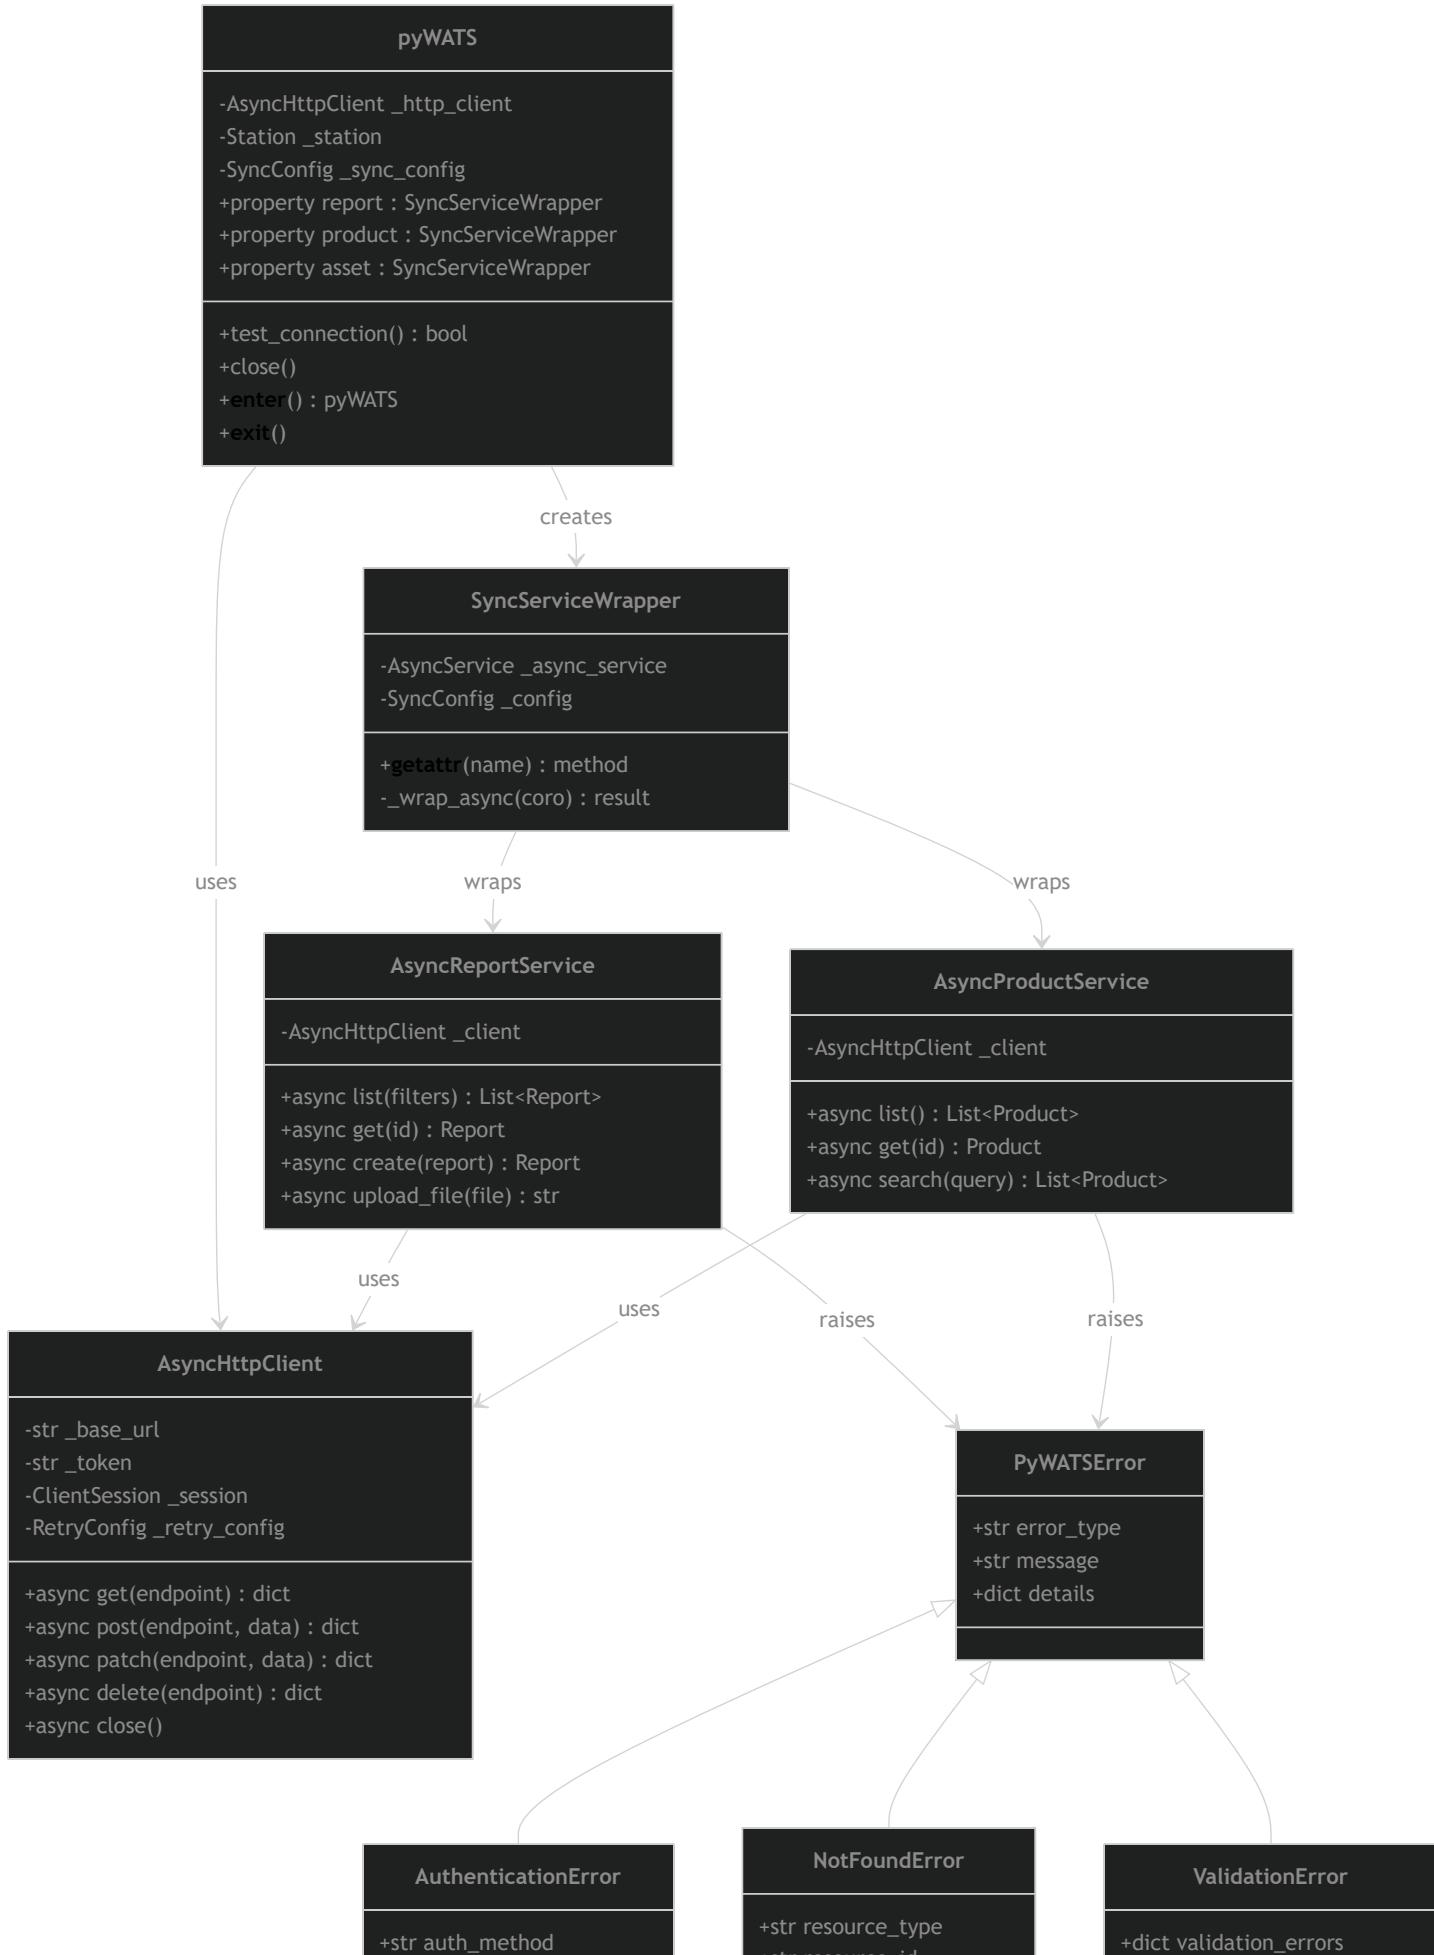

## 2. Layer Component View

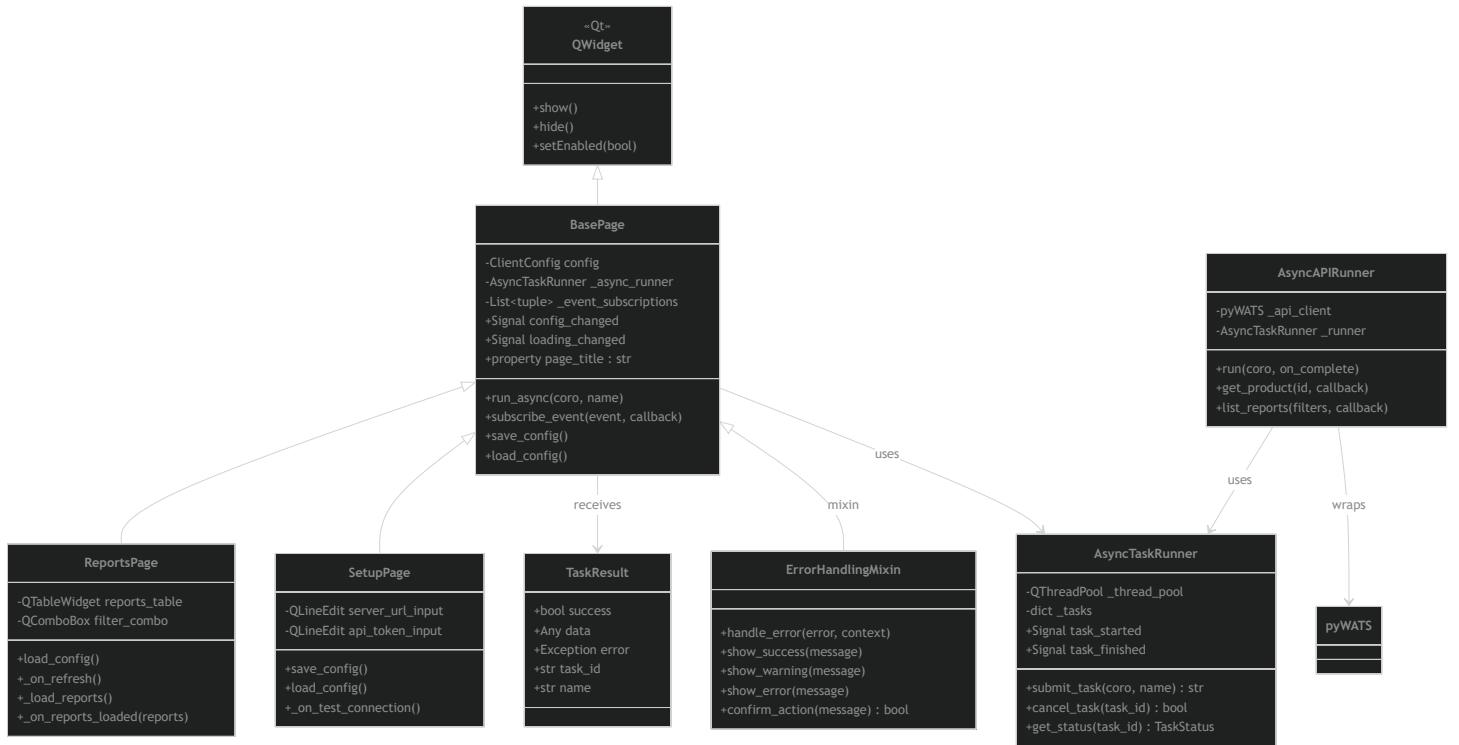

### **3. Class Hierarchy - API Layer**

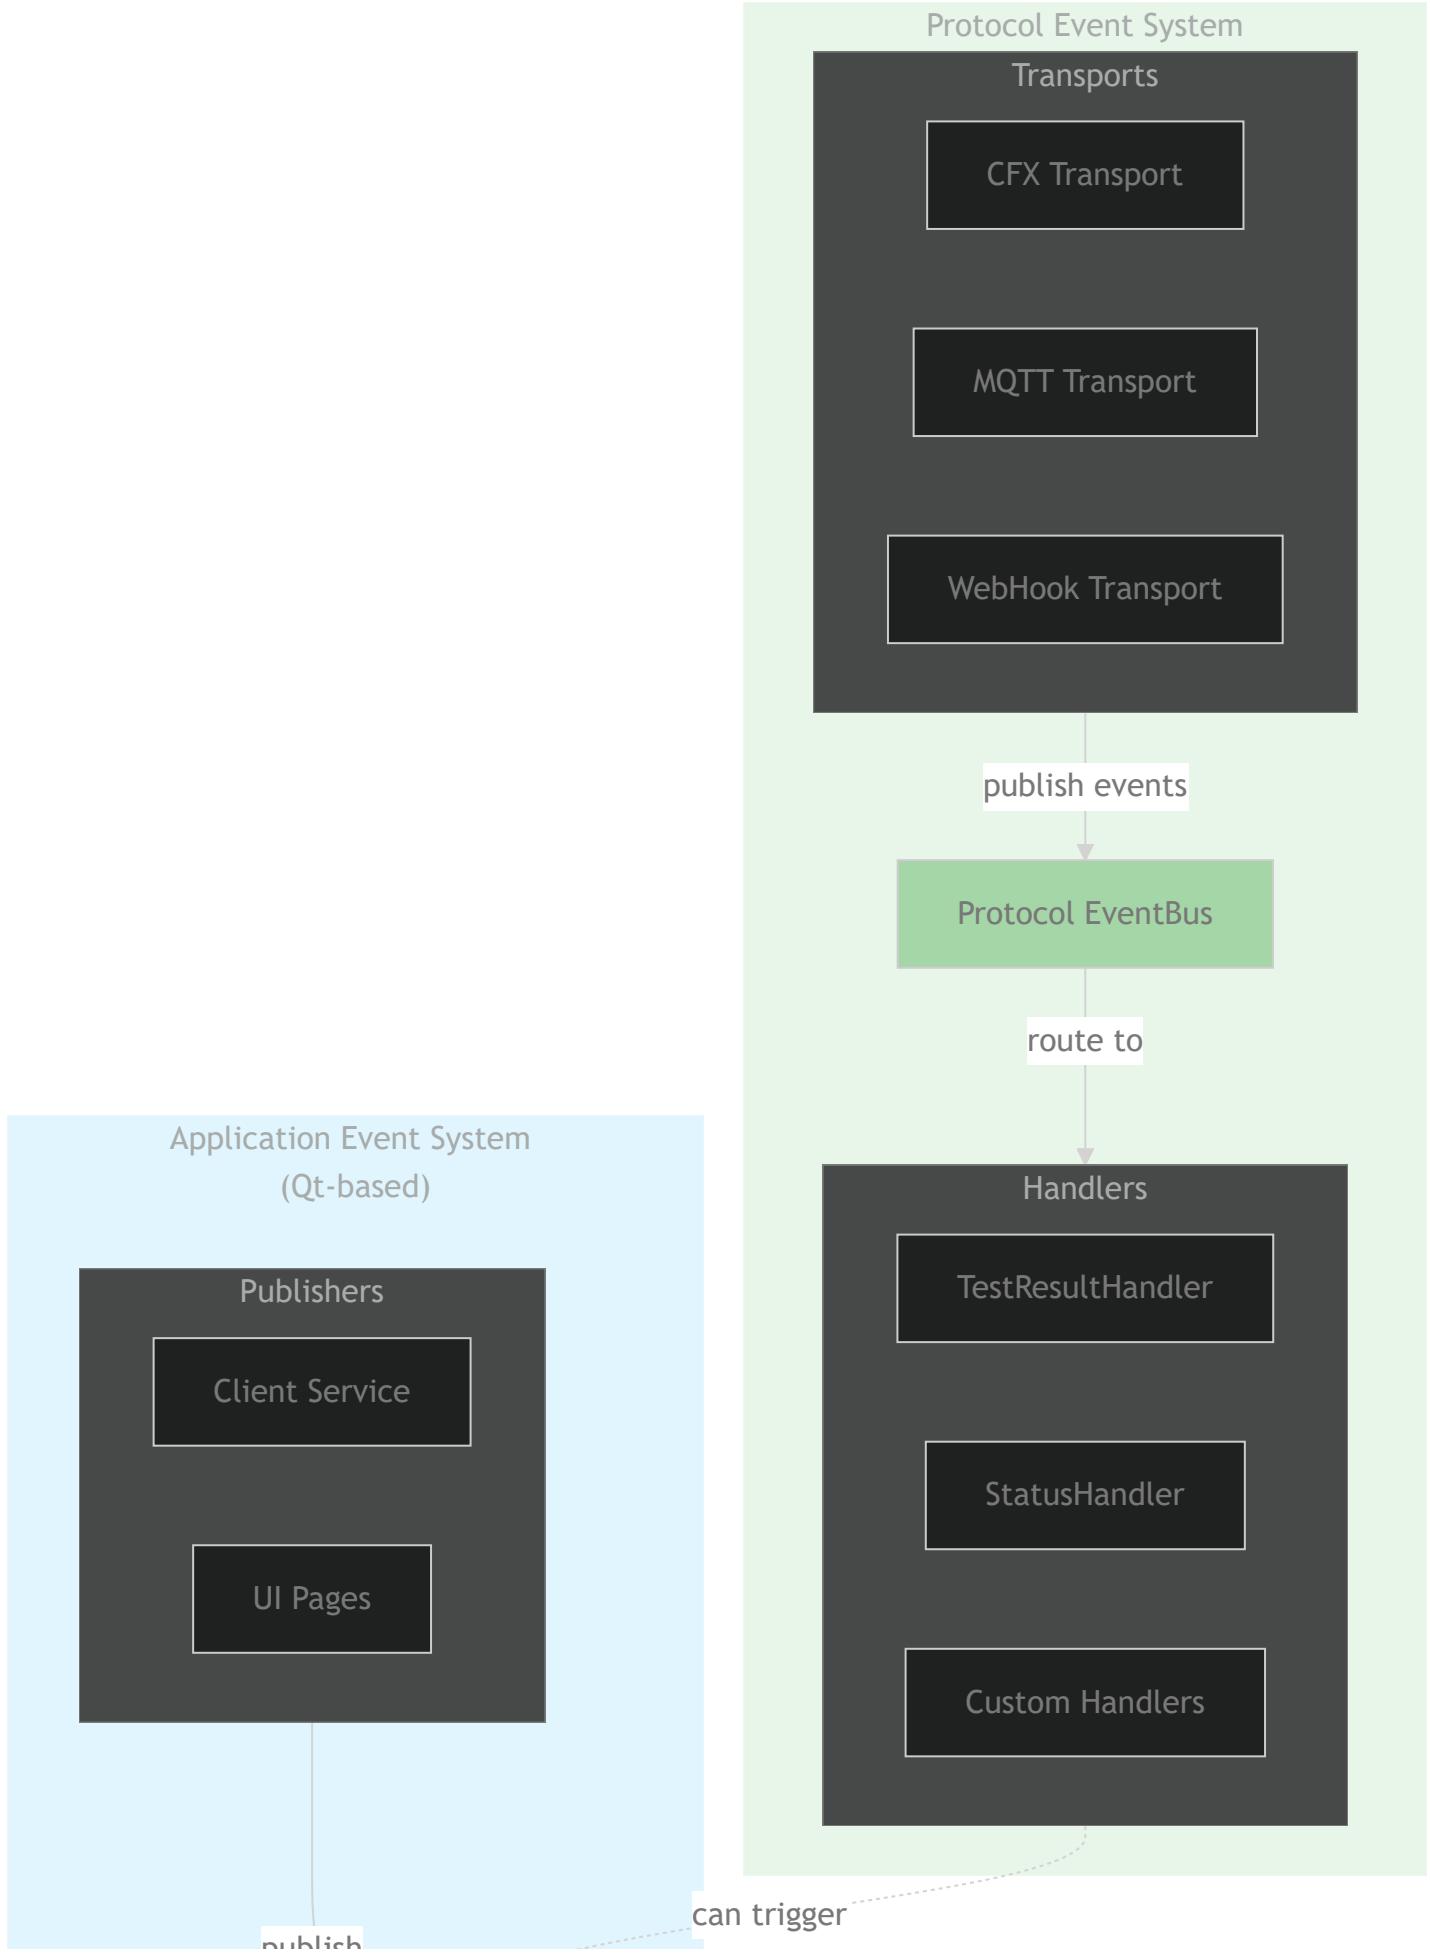

## 4. Class Hierarchy - Client Layer

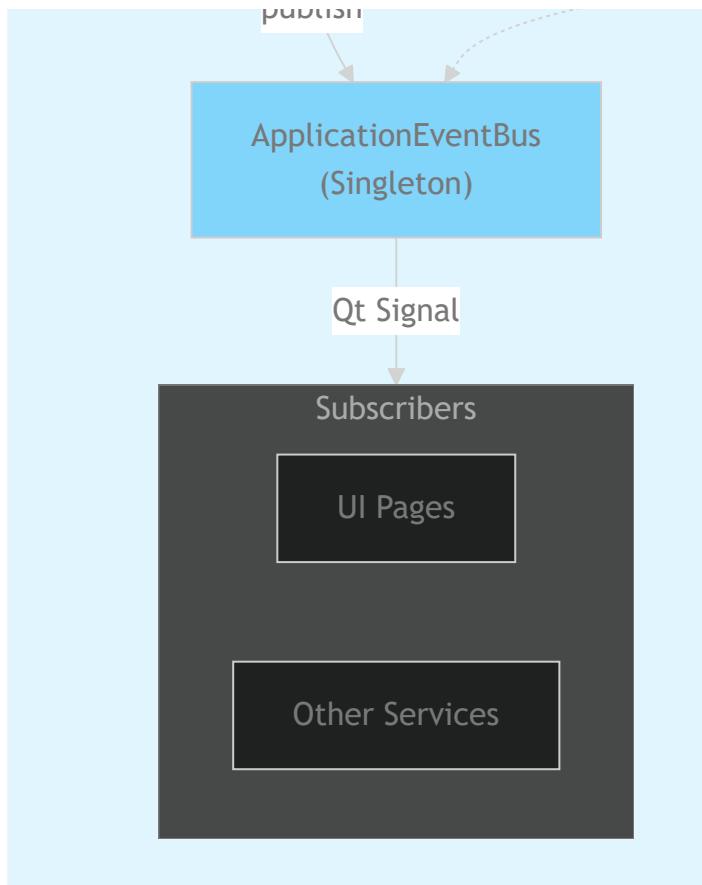

# 5. Class Hierarchy - UI Framework

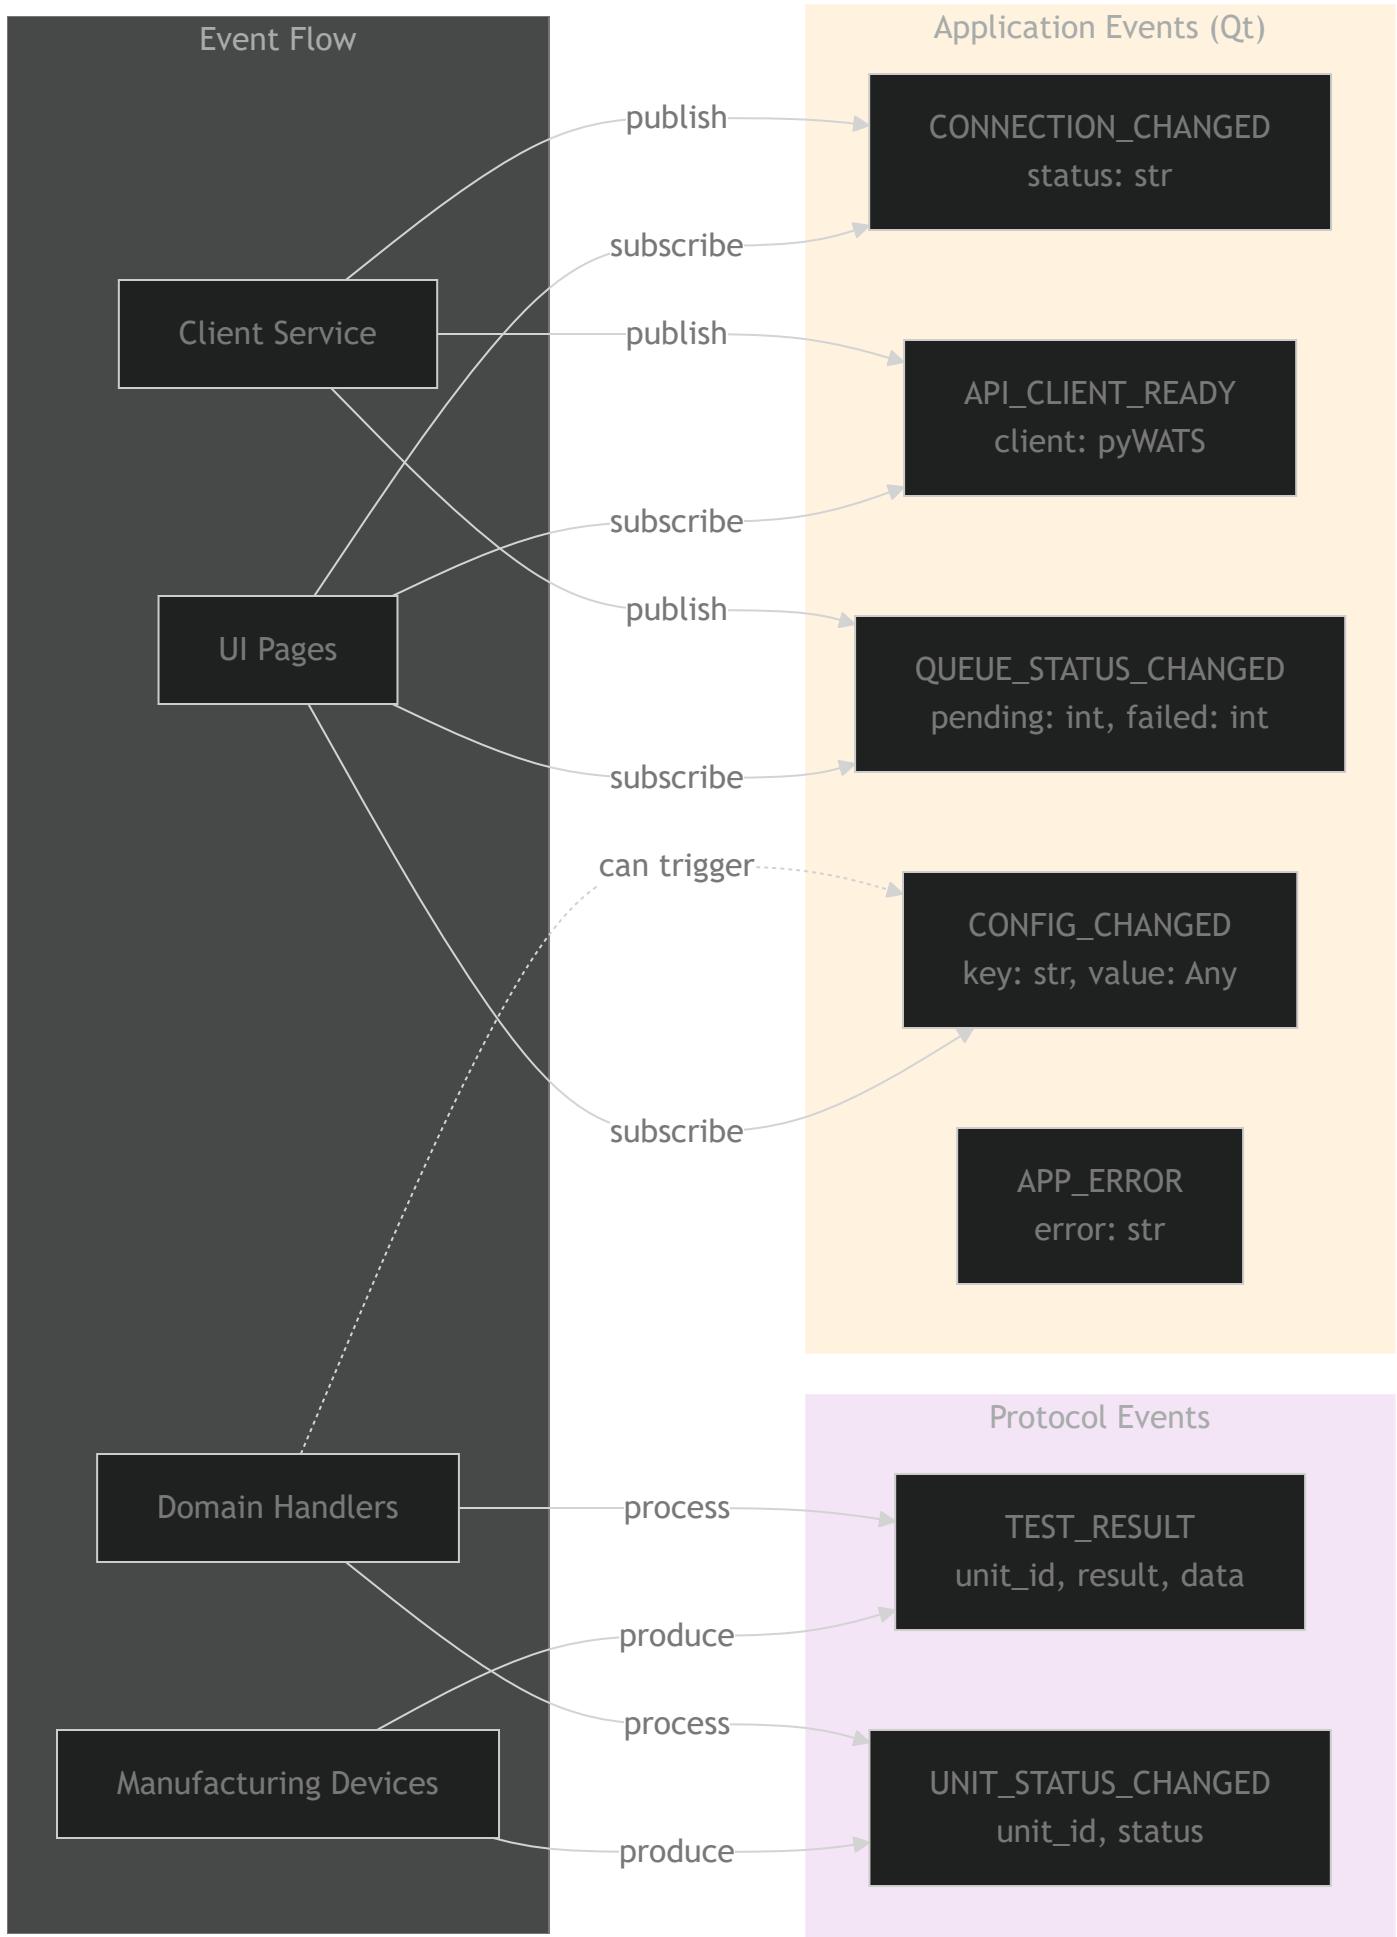

## 6. Event System Architecture

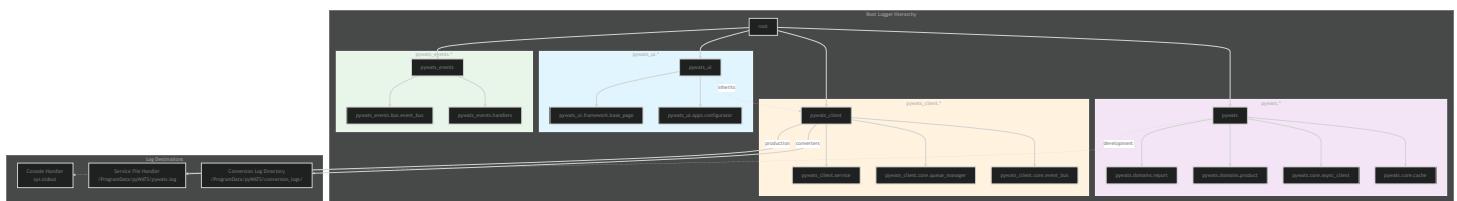

## 7. Event Type Hierarchy

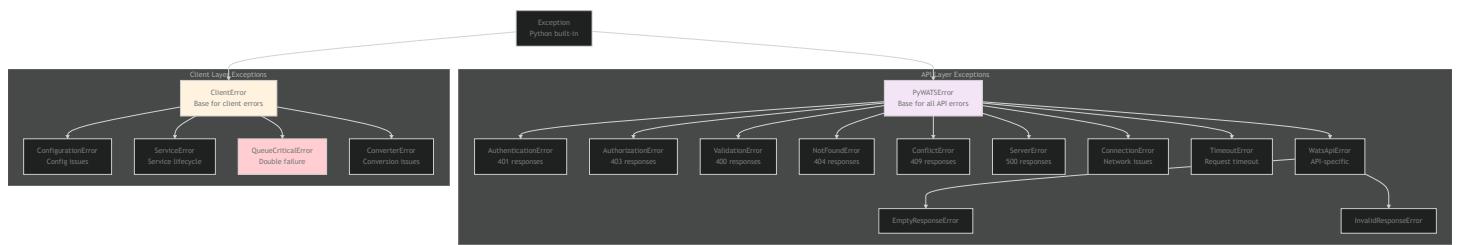

STATION\_STATUS  
station\_id, status

RESOURCE\_UPDATED  
resource\_type, id

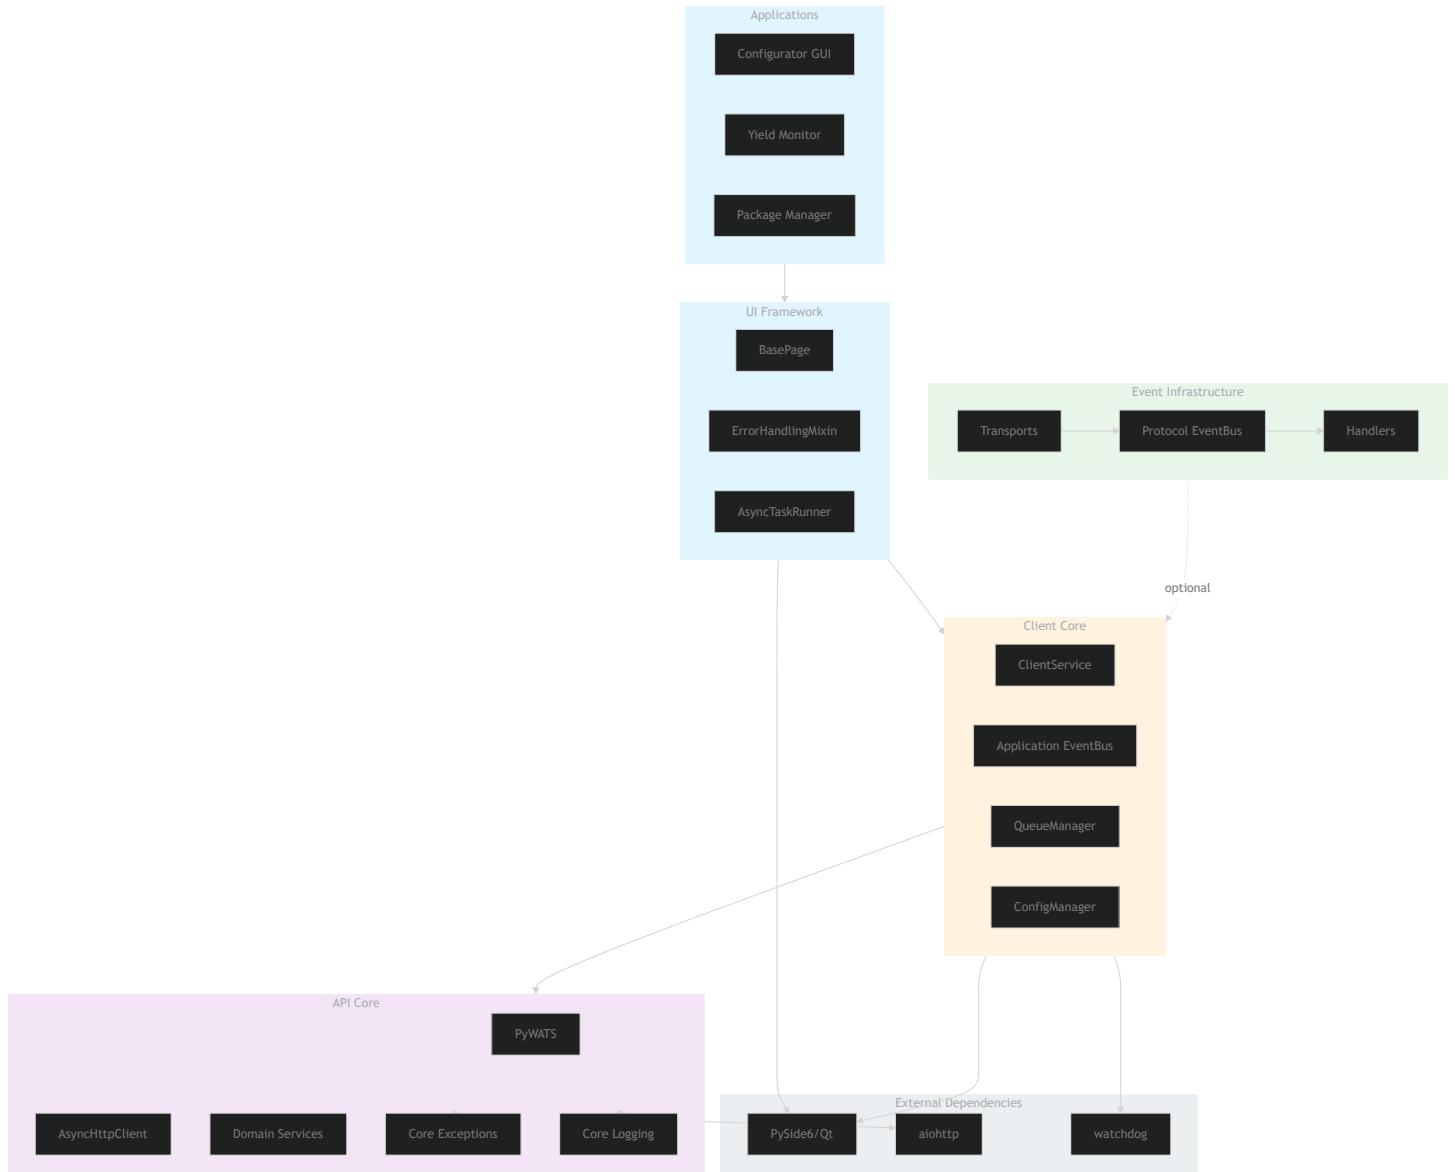

## 8. Logging Architecture

## 9. Exception Hierarchy

# 10. Dependency Graph

# 11. Component Communication Matrix

From ↓ To →	UI Layer	Client Service	Application EventBus	API Layer	Protocol EventBus
<b>UI Layer</b>	-	IPC calls, Config updates	Subscribe, Publish	Direct calls (degraded mode)	-

<b>From ↓ To →</b>	<b>UI Layer</b>	<b>Client Service</b>	<b>Application EventBus</b>	<b>API Layer</b>	<b>Protocol EventBus</b>
<b>Client Service</b>	-	-	Publish events	Direct calls	Optional: Trigger app events
<b>Application EventBus</b>	Qt Signals	Qt Signals	-	-	-
<b>API Layer</b>	Return values, Exceptions	Return values, Exceptions	-	-	-
<b>Protocol EventBus</b>	-	Via handlers	Via handlers	-	-
